

VerifyAbroad-AI

Verification Knowledge Base & Fraud Pattern Reference

Study Abroad Safety Assistant ke liye reference document — Pakistani students ke liye, English aur Roman Urdu dono mein.

This document is the knowledge base reference for VerifyAbroad-AI's RAG pipeline. It combines documented fraud patterns, real reported cases, official verification sources, and sample test data so the assistant can give evidence-based verdicts instead of guessing.

Yeh document VerifyAbroad-AI ke liye reference hai — fraud patterns, real cases, official verification sources, aur test data sab ek jagah, taake AI guess na kare, balke evidence ke basis par jawab de.

1. Common Fraud Patterns

Aam scam patterns jo Pakistani students ke sath hotay hain, English aur Roman Urdu example phrases ke sath.

Pattern	What it looks like	Roman Urdu example phrase
Guaranteed outcome	Claims of certain visa/admission approval	"100% visa guarantee hai, tension na lein"
Payment pressure	Demanding payment immediately, same day	"Aaj hi payment kar dein, offer sirf aaj hai"
Personal account payment	Asking for money to a personal bank/wallet, not a company account	"Is personal account mein paisay bhej dein"
Artificial urgency	Creating false time pressure to stop the student thinking	"Jaldi karein, seat nikal jayegi"
Discouraging verification	Telling the student not to contact the university/embassy directly	"University ko contact na karein, sab main handle kar dunga"
Unverifiable scholarship	Scholarship claims with no official source or documentation	"Free scholarship mil rahi hai, bas form fill karein"
Unofficial-only channel	Everything handled over WhatsApp, no official email/portal	"WhatsApp pe hi sab confirm ho jayega"
No receipt/invoice	Cash requested with no written proof of payment	"Cash de dein, receipt baad mein bhej dunga"

2. Real Reported Cases (FIA)

Yeh sab real, news-reported FIA cases hain — inko demo mein 'is tarah ke cases pehle ho chuke hain' ke context ke tor par use karein.

Case	What happened	Source
Fake HEC scholarship agent	Consultant operating as “Broadway Consultancy” promised admission to a US university plus a fake HEC-funded PhD scholarship, collecting \$10,000 per victim using forged HEC documents.	ProPakistani, Jul 2026
Fake US visa appointment letters	A Karachi consultancy (“Mansoor Consultants”) issued fake US visa appointment letters, charging PKR 200,000; exposed after the US Consulate filed a complaint.	Express Tribune / Daily Times, Feb 2025
Travel-agency fraud network	A network in Gujranwala ran a combined travel agency and study consultancy, extorting money from students under the pretext of arranging visas.	Express Tribune, Apr 2026
Upfront payment, then disappeared	A consultant in Multan collected Rs. 850,000 for a promised opportunity abroad, then went into hiding without delivering anything.	Pakistan Today, Jun 2025

Note: consultant/agent names above are as reported in the news source, included only as documented case examples — not accusations against any currently operating business.

3. How the Assistant Decides (Risk Levels)

Al kabhi seedha 'safe' ya 'scam' nahi kehta — har claim ko alag verify karta hai, phir overall risk level deta hai.

Each claim (university, agent, payment) gets one of three verdicts:

- **VERIFIED** — matches official/known information
- **NEEDS VERIFICATION** — could not be confirmed either way
- **NOT FOUND / CONFLICTS** — contradicts or is absent from official records

These combine into an overall risk level:

- **LOW RISK** — verified information, no fraud patterns detected
- **MEDIUM RISK** — some info unverifiable, or one mild pattern present
- **HIGH RISK** — unverifiable/conflicting info plus one or more strong fraud patterns

Hard rule: the assistant never invents a verification result. If a university or agent isn't in the knowledge base below, it says so clearly instead of guessing — “not found” is a valid, honest answer, not a failure.

4. Official Verification Channels by Country

Har country ka apna official government source hota hai jahan se university/scholarship verify ho sakti hai.

Country	Official channel	URL
United Kingdom	UK Government student visa info	gov.uk/student-visa
	UCAS (undergraduate applications)	ucas.com
	British Council Pakistan	britishcouncil.pk
United States	US Dept. of State — student visas	travel.state.gov
	EducationUSA Pakistan	educationusapakistan.org
	USEFP (Fulbright Pakistan)	usefpakistan.org
Canada	IRCC — study permits	canada.ca (IRCC)
	EduCanada	educanada.ca
Australia	Australian Govt student visa info	immi.homeaffairs.gov.au
	Study Australia (official)	studyaustralia.gov.au
Germany	DAAD official portal	daad.de
	uni-assist (application processing)	uni-assist.de
	German Missions in Pakistan	islamabad.diplo.de
Pakistan (source-side)	HEC Pakistan	hec.gov.pk

Key insight: almost every destination country maintains its own official, government-run list of institutions authorized to take international students. A university name that doesn't appear on its own country's official list is the single strongest, most reliable red flag — regardless of which country is involved.

5. Verified Scholarship Sources

Yeh sab scholarships free hain aur direct apply hoti hain — agar koi agent inke naam par fee maange, to yeh khud hi red flag hai.

Scholarship	Country	Note
Chevening	UK	Fully funded, free to apply, no agent needed
Fulbright	USA	Administered via USEFP, no agent/fee required
DAAD	Germany	Free via official DAAD database
Australia Awards	Australia	Fully funded, applied via OASIS portal directly
Commonwealth Scholarship	UK	Nominated via HEC in Pakistan, free to apply
HEC Overseas Scholarships	Various	Verify any scheme name against HEC's published list first

6. Sample Knowledge Base Test Cases

Yeh demo/test data hai (asal companies nahi) — hackathon demo mein teeno verdict types dikhane ke liye use karein.

Agent / Company	Claimed university	Status
Bilal Ahmed — Bright Path Education Consultants	University of Manchester	VERIFIED
Sana Malik — Horizon Overseas Consultancy	University of Melbourne	NEEDS VERIFICATION
Ahmed Raza — Global Future Consultants	Arizona State University	NOT FOUND
Fatima Sheikh — EduWay Consultants	Technical University of Munich	NEEDS VERIFICATION
Usman Tariq — “VisaSure Guaranteed Admissions”	“Global International University” (unverifiable)	NOT FOUND

Community report data (ratings/complaints) exists for these same test agents but is explicitly labeled as sample/demo data in the source file — not real crowd-sourced reports. Present it in the app as supporting signal only, never as proof, per the system prompt rules.

7. Sample Test Messages (Roman Urdu) — For the Demo

Yeh teen messages live demo mein use karein — teeno alag risk level dikhayenge.

HIGH RISK	<i>“Consultant keh raha hai 100% visa guarantee hai, aaj hi 5 lakh personal Easypaisa account mein bhejo.”</i>
MEDIUM RISK	<i>“Agent bolta hai ke woh UK university ka official representative hai lekin university ki website par uska naam nahi mil raha.”</i>
LOW RISK	<i>“Mere paas university ke apne official email se offer letter aaya hai aur main fees university ke online portal se direct pay kar raha hoon.”</i>

Honest Scope Note (say this during the pitch)

“For this hackathon, we verify against a curated set of official country sources, HEC-listed scholarships, and documented FIA-reported fraud patterns. In production, this would connect to live university, embassy, and consultant-registry APIs for full entity coverage.”

Sources: HEC Pakistan, official government visa/education portals of UK/USA/Canada/Australia/Germany, and FIA-reported cases via ProPakistani, Express Tribune, Daily Times, and Pakistan Today (2025–2026). Agent/university test entries in Sections 6–7 are project-created demo data for the hackathon MVP.
